

## Why invest in Move Colorado?

A strong and consistent voice in support of a safe and well-funded multi-modal transportation system is critical. For more than 25 years Move Colorado has served as an important leader in this role. In addition to connecting with other professionals in the transportation industry, you will be a member of this unique transportation policy-driven organization.

Below are some of the opportunities that this unique organization provides members:

**Learn:** Move Colorado's membership meetings provide a forum to hear from experts within the industry, both within the membership and speakers from outside the organization. Our membership meetings provide insights into the policy and political process affecting the transportation industry.

**Exchange:** Move Colorado's membership is composed of companies, organizations, and individuals that bring a wealth of knowledge regarding transportation and economic policy, allowing for frequent information exchanges that benefit all members.

**Debate:** Move Colorado brings together transportation professionals from across Colorado and from diverse perspectives. These diverse perspectives provide a forum for civil and robust debates and consensus-building around transportation funding policy and related economic impacts.

**Action:** Participation in Move Colorado provides opportunities to help shape Move's policy position statements, craft testimony on proposed legislation and provide input on outreach and educational materials. There are opportunities to testify before the legislature regarding proposed legislation and to expand Move's influence across the state.

**Influence:** Move Colorado's transportation policy focus includes opportunities for engaging with elected and appointed officials across Colorado to communicate our position regarding legislation, rules, and policies that drive transportation funding and investments.
